

Vivier Iskander van Temeschwar,

I wanted to extend my admiration of your most excellent songwriting in honour of our wonderful new Empress during her coronation celebrations. What a wonderful piece of music, and such wonderful touches in the lyrics!

We eagerly await your next masterpiece. In thanks for your contribution to the arts thus far, and in hope that it will aid you in creating many more, I have enclosed a small sum - a donation to you and your craft. I have also convinced the guild of the Iron Bulwark to make further, albeit appropriately smaller, donations to some of the troupes who included your song amongst their own performances during the festivities.

In admiration,

Beatrijs von Holberg, of the Iron Bulwark
