
Senator Cesare Sanguineo Rezia Di Tassato,

I write to you on behalf of The Lady Kaliact, Salt Lord of Apulian, Governor of Spiral.

She would like to invite you to attend a meeting with herself and some trusted advisors in the dining hall at the Spotted Hound in Outer Anvil at Half Past One on this Saturday Afternoon. A representative will meet you at the main entrance of Anvil proper at Twenty-Five Minutes Past the hour.

At the meeting, she intends to discuss the future of Spiral and the situation between The Grendel and The Casinean Empire.

As is customary among our people, she will begin by presenting gifts.

The matters up for discussion are sensitive, and so your discretion ahead of this meeting would be appreciated. In particular, we would be grateful if this meeting is not brought to the attention of the Ambassador to the Grendel, Abel of Zenith Ascendant. We have invited the Imperial Consul to handle any legal matters required.

Yours in Trust,

Maistir Odhrán Larnach,

(She/Her)

We have invited yourself in place of the Ambassador since my Lady intends to negotiate on her own behalf, not as a member of the Council of Salt Lords. We understand that you have the legal responsibility for negotiations with parties who do not have an embassy.

Honoured Friend Andronikos,

I appreciate the effort you applied to our negotiations last season. It is unfortunate that we were not able to pass the treaty through your senate, but my secretary Lachlan assures me this was no fault of yours. He says that the negotiations seemed promising, and that it must be down to either political manoeuvring or the incompetence of the new ambassador.

If you are willing, I have one more request for you and your allies to perform. Either myself or Lachlan will attend to you at Half-Past Eight on Friday Evening to discuss the matter.

Salt Lord Kaliact is pleased with our performance so far. If you have anything you wish me to ask of her on your behalf, feel free to raise it when we meet.

Yours in Gratitude,

Maistir Odhrán Larnach,
