

To General Nicassia of Pheonix Reach
Commander, Citadel Guard

General Nicassia,

I'm am writing to you at this time to inform you of the passing of Fidelia I Dominee I Guerra this past season. She and her ship "Fortune's Fool" were engaged in scouting activity for the freeborn storm when they came across a squadron of Barbarian Raiders. In the ensuing battle Fidelia I Dominee I Guerra successfully managed to evade the pursuing Grendel but was struck down by orc crossbowmen as she retreated, dying before the ship and her company made landfall the next day.

Fidelia I Dominee I Guerra's will was read at her funeral and in it she named you as her "Daughter by blood". From this and Fidelia's instructions I am to conclude that Captain Fidelia I Dominee I Guerra was your natural born mother before your adoption into the Urizen Nation.

I have been commissioned by the deceased to act as the executor of her will and I am currently on my way to Anvil to discuss several of the articles within this document with you. This service has already been paid for in full by the deceased and as such no further numeration is required on your behalf.

Please let me express my condolences with your loss.

I look forward to meeting you in person to discuss this further.

Your Servant

Zulimar i Alustaf i Erigo
