

*Valimir von Temeschwar*

*Firstly I would like to apologise for not finding time to talk to you last summit, I was dealing with a very important matter, which was concluded successfully with the aid of your Iron Raptors.*

*I have made contact as I wish to arrange better trade links between Maykep and the Empire, and would like the opportunity to discuss options for future business.*

*I hope to arrive in or around the twentieth hour on the first night of the coming summit to discuss the details of future trade. I would herby like to ask you to arrange a location for us to meet in private to discuss the details, I would rather not conduct our meetings in public. I will endeavour to find you in the league camp.*

*On a slightly more sensitive point, to aid negotiations, I have come across some information which might aid you in your war with the Grendel as Axou is not formally at war with the Grendel I require the utmost discretion as I cannot allow this information to be public,*

*To further this discussion I would ask that you find the commander of an elite squad which would be well placed to conduct a lightning strike, and are experts in stealth.*

*Yours*

*Most respectfully*

*Iro Blood Of Fotis*
