

Jonah Yakovitch von Holberg; I convey to you the cordial greetings and felicitations of the City of Lead and Gold.

It has come to the attention of the City of Lead and Gold of the Concord passed by the Conclave about the acquisition of artefacts and the prescription of trade of your business and by extension your guild.

I am aware that there are many in the City of Bridges and the City of Chains who also have similar views about this Concord and I am sure they will also wish to speak to your coven about this situation.

I shall be sending a herald to speak to your coven about trade and the fair acquisition of artefacts by arrangement with the City of Lead and Gold directly.

I trust you will keep this matter between us until my herald can speak to the relevant people in person.

Reed

Reckoner of the City of Lead and Gold
