

I have recently come into possession of some historical documents concerning Kala, the Urizen Exemplar of Wisdom. Having consulted with some academics on the subject I have been urged by some to publicise their contents, and by others to destroy them.

Being no scholar myself, I have resolved to settle this dispute by means of a private auction, to which you are invited. It will be held at 4 o'clock on the Saturday of this coming summit, in the Anvil Library.

You should present this invitation on entrance to the auction, or you will be barred from entry. If you will not be available at the allotted time, you may send an individual in your place, as long as they present this invitation.

Yours,

Rodrigo i Valasco i Guerra
