

William Talbot

The Queen of Ice and Darkness respects your words and will meet with you. She wishes to give you the reward that you deserve for your actions on the field and battle and off it.

She also would like to ask your advice about who should represent her in the Tournament to fight for the College—since there are few in the Empire who she respects to stand for her.

This invite is for you and two fellow Marchers should you wish to bring companions with you

You may reach the chamber through the Hall of Worlds at around 6 o'clock on the 2nd day of the Solstice.
