

*To General Nicassia Avicia of Phoenix Reach, Commanding General, Army of the Citadel.*

*General, As per your orders we have advanced in Reikos and engaged the enemy therein.*

*During our pursuit of the retreating Druj we encountered a party of Orcs moving away from the main body. We pursued this unit along an axis that appeared to take us towards the boundaries of the forest of Peytaht.*

*Fortunately we were able to catch the party before they crossed the border into the Barrens and engaged them. Such engagement would not normally elicit a report directly to high command but the outcome of this encounter resulted in us isolating one of the fleeing Druj magicians and his bodyguard.*

*Strangely, the Druj magician in this instance executed his own guard as we approached and proceeded to surrender to us. Treachery amongst the Druj is common but we rarely see it directly in the field, let alone have Druj surrender to Imperial Forces knowing the fate that normally accompanies such an act.*

*We have secured the orc prisoner to investigate further. Upon interrogation he has stated that he has important information which he is willing to offer up should a deal to his liking be reached. I fear such a deal is beyond what I am able to authorise myself and as a result I have dispatched him under guard to Anvil so that he can be properly debriefed.*

*In addition to the orc prisoner we have also despatched his possessions, including a phial of an unusual herbal substance which he was carrying.*

*We hope that you are able to discern some useful intelligence from this individual.*

*Captain Fulcara Melebor of the Fallenstar Spire, Army of the Citadel.*
