

Sirka, Yelisaveta, Ilya

We are the Sobolisa. You may know our name from song or legend – furtrappers brave enough to work the valleys and forests between Olvanshka and the Weeping Stone.

We seek help, to prevent things from straying from the path. We seek folk to understand the problem we find and talk with us to find the best answer.

We are relying on three things.

First, The Sentinel Gate must align and offer a way for those in Anvil to come to us here at the Sobolisa Cabin in Kamienczka in Karov.

Next, you the Egregores must help find Wise Ones to advise us on our problem, and perhaps also storytellers or lovers of trading so that our sharing may be convivial as well as rich in purpose.

Last, we trust our own judgement that the problem we note will take time to bring danger, that we have time, together, to plan and ensure that the brewing threat to much of this region is quelled.

Our Sobolisa Cabin in Kamienczka, Karov is in no physical danger right now, it is Wisdom that we need.

Stay safe on the road
