

Dear Mister Senator Chezare,

My mum sed that you was who was the one who sed that we culd stay her. I asked her if I could write to say thank you and she sed yes so I did. I thort you would like to here how much I like it here because it is safe and my mum sed yes that was good and then she cried.

My name is John Watcher and I am 6. I have a brother who is called William, but he isnt coming home my mum segs becaus he went to fight the Yotun (who are all bad!) and then there was a big cloud? OR sumthing and so he got very sick on the way back.

Here is a picture of William he is fitin a orc.

He is ded she segs but I am not sure because I thort I herd him talking to me last night. Angway Friar Bill segs that William waz very virtuous and he held the eight in his hart and so he wuld come back soon so I thort that is maybe why I herd him. I miss William so I hop he dos come back soon.

My mum is called Alice and she is very nice and she smells of flour. She is a baker and makes good bread and you should come and eat it sometime! She segs that you are meant to be very nice even though you have horns like a sheep does (I dont kno anyon with horns? Did they hurt wen they cam out?)

Angway my grammy Joyce segs that you should say thank you wen someone has done something nice and so this is my thank you. I know that there are arguments because of virtue and something and things but I think we all believe in virtue so cant we be friends?

Bye, JOHN
