

Troubled Dreams

In the past week or so, you have had a troubling dream of the Empire in flames; as it is ravaged by barbarian hordes who are ushered into the Empire by citizens in Varushkan attire. You can do nothing but watch as what you hold dear is torn asunder. In your dream, you hear voices chanting again and again.

*We are the sparks
That shall light the fire
The Empire will burn
From the Ashes of Tyranny
The Firestarter shall be revealed
Reborn at last as the Paragon of Chaos*

In the skies above the flames, the constellation of The Chalice shines, but it is inverted and the stars are blood red. Around it the runes of Queros, Naeve and Mawrig appear.

NOTE

If you receive the *Omen of Vigilance* anointing from a Vigilance Priest, you may ask a referee for details of a specific dream referenced: "Omen of Vigilance E1-2015".
