

To those welcomed to the first session

You are those who The Celestial Eye invites to a precious space in the realm of Day where performer and audience and Eternal shall come together in a deeper understanding of sound and emotion.

We take care to reassure that there are no enchantments, there or upon leaving. The Thousand Eyes of Sun and Moon offers this experience because it interests her, to be enjoyed by those who themselves are interested. We know there is fear among some Imperial Citizens and certain other gifts from the High Mandarin have been misconstrued whilst others struggle with challenges from a few years past. We urge you to put aside any concerns other try to lay upon you, and join us in expanding perception.

If you should have any concerns, a human agent of Kimus will be in Anvil, at the Hall of Worlds, for half an hour before Conclave on the first evening of the Solstice.

The first session begins at half past two in the afternoon on the first full day the Solstice.
