

Oscuro,

Your progress with the daggers was pleasing. I am sending a Herald to meet you with a small token of my respect and some suggestions for further collaboration. Please greet them or send someone to greet them at the Hall of Worlds at around 7pm on Friday of the Solstice.

I would like you to take them somewhere convivial. The first half hour of their time should be all yours, but after that The Prince of the Tontine wishes that they may meet with Laffiette, Cesare and Caska. You should make it clear to all of these where they can find you at this time. I will have them seek you out.

There is a small anomaly to address as I am unable to find any record of Cesare as a participant in my High Tontine. Perhaps you will bring with you the records that convinced you they were?
