My cabal said that you wanted to meet, I will see if this is possible on the Sunday of the next festival. If your cabal is ready and if the Tangled Thorns are ready we shall bring as many people as possible to cast this Arcane Projection.

If message could be sent to me, so I know roughly how many people I should bring, that would be of great use.

For the other matter of which your letter spoke, I honestly have no idea. I have children across Miekarova and I have little desire to socialise with them. Do not take this personally, I do the will of the Green Mother and make sure my seed is spread wide, the blessings of the Green Mother lie with me and I have many children, many of which are briars.

Since the attacks of the Howling Queen I have tried not to lay down many roots, but I wish you luck on your journey and I am sure your acts will be for the good of the Green Mother and the good of the Empire.
