

Tavos Ageli - Axou undead soldiers

Quick insight: Ghost

Thorough insight: The Tavos Ageli was once a person. While alive, their ghost was made to possess their own body.

Exorcism: The Tavos Ageli can be exorcised by a rank 6 exorcism **but only if its mask has been removed**

Anointing, hallow, testimony, etc: all work as they would on a human.

Potions, herbs, etc: all work as they would on a human. But the Tavos Ageli will not remove its mask to drink anything.

All normal ways of healing work.

At around 20:15, the Tavos Ageli will go on a murderous rampage. Attempts by the players to use calming roleplay effects will not work on it.

It only goes down for a couple of minutes at a time. While it is down, they can kill it by exorcising it. They can successfully exorcise it with a rank 6 exorcism **if they remove its mask first**.

Whispers Through the Black Gate:

If they cast this ritual on the Tavos Ageli, it will take on the persona of the person it was when alive for the duration of the ritual.

No other ghost will appear.

After the ritual, it will return to normal. It will not go on its murderous rampage (at least not for a week or so).
