

*Lucian of Ephemeris, Urizeni Camp, Anvil*

*Friends,*

*Forgive us for not writing personally to each of you but instead sending the same message to each. We hope the Navarri mail at Anvil works well this season.*

*We've been with the Citadel Guard in Spiral, it seemed to be about time that we made up for the friends that we lost who were once soldiers, and so our time for preparations has been less than it might. If you are still keen to see the Venatores Illustres restored, and to hunt monsters with us, we will meet you in The Forge in Anvil around 10 on the Friday evening of the Equinox or as soon after it as you can possibly make.*

*We have three things to talk of:*

*One: Who will come to Solemn Fields and be initiated? We are hoping for a conjunction on Saturday afternoon.*

*Two: Who will come with us to speak to the Varushkan National Assembly. Augustina (Laurel's Grandmother) laughed at their request - statement of principle without actual inquisition - she has not been in Varushka in 20 years - so it is up to us now to speak for the Venatores. Us and you, as well.*

*Three: What should we say to the Wintermark Hall, the Wyvern's Watch. Rumours travel that they are monster hunters. Shall we make with them a rivalry and sport?*

*If you cannot meet us at The Forge will you send word with someone you trust as to where we can find you around that time of the evening, or if that is impossible, where you will be most immediately after battle on Saturday?*

*Adiran and Laurel*
